PEOPLE BEFORE.

Combi

Una gamma completa di componenti per ogni tipo di cancello e portone industriale che è il frutto di oltre quarant'anni di esperienza e di impianti produttivi moderni ed integrati, in cui tutto è orientato ad offrire sempre la risposta più precisa, professionale ed affidabile anche alla richiesta più particolare. Combiaraldo è tutto questo, e molto di più.

A comprehensive range of components for any type of gate or industrial door, which is the result of over forty years' experience and cutting edge, integrated production plant, where everything is underpinned towards always offering the most precise, professional and reliable answer even to the most special requirements. Combiaraldo is all this, and much more.

È la storia di un'idea imprenditoriale che ha saputo trasformare le potenzialità del sapere artigianale delle origini in moderna realtà multinazionale, dove avanguardia tecnologica ed attenzione al cliente fondano un successo che vive in migliaia di complessi industriali che ogni giorno in tutto il mondo aprono i loro battenti con Combiaraldo.

The story of an enterprise concept that has been able to transform the potential of its origins in skilled workmanship into a modern multinational reality, where cutting edge technology and care for the customer have founded a success that lives in thousands of industrial complexes throughout the world, day in day out, open their doors with Combiaraldo.

**Credere nelle persone, nel valore
di una stretta di mano. Rispettare e
conoscere il mercato. Fare squadra
con i nostri partners. La nostra
mission... un salto nel futuro.**

Believe in people, the value of a
handshake. Respect and know the
market. Team work with our partners.
Our mission... a dive into the future.

COMBI ARIALDO ha introdotto per la propria organizzazione il sistema di gestione per la qualità conforme alla norma UNI EN ISO 9001. A garanzia della conformità dei propri prodotti, sottopone ogni fase del ciclo di lavorazione ad attività di "autocontrollo" da parte degli operatori, con registrazione periodica dei controlli effettuati. La bontà dei materiali utilizzati per i nostri prodotti è garantita da una accurata selezione dei fornitori e da un costante monitoraggio delle forniture. COMBI ARIALDO è inoltre in grado di soddisfare specifici requisiti del settore automotive, come ad esempio la procedura "PPAP" (Production Part Approval Process) e la fornitura della relativa documentazione.

COMBI ARIALDO has introduced in its organisation a Quality Management System according to UNI EN ISO 9001. To guarantee the conformity of its products, every stage of the processing cycle undergoes "self-control" activity by the operators, periodically recording the controls performed. The high standards of the materials used in our products is guaranteed by an in-depth selection of suppliers and by constantly monitoring the supplies. COMBI ARIALDO is moreover capable of satisfying specific requirements of the automotive sector, as for instance the "PPAP" procedure (i.e. Production Part Approval Process) and supply of the relevant documentation.

Un percorso che combina tradizione e sviluppo tecnologico, alla ricerca di un prodotto semplice ed innovativo, in grado di soddisfare le molteplici esigenze del mercato.

Un successo che viene assicurato da un continuo scambio di esperienze e da una costante collaborazione con i nostri partners.

A long itinerary of combining tradition and technological development in search of simple and innovative products, capable of satisfying the multi-faceted market demands.

A success that is ensured by a continuous exchange of experience and constant collaboration with our partners.

Art. 111

Cuscinetto reggispira zincato
Ball bearing white- zinc
подшипник для петли

Cod.	CodTek	Ø	Pz/Pcs	ØF	ØD	sp	Portata
111.9	ACE011101ZB	9	100	Ø9	Ø15	5,6	3000 N
111.10	ACE011102ZB	10	100	Ø10	Ø17,5	6	4500 N
111.11	ACE011103ZB	11	100	Ø11	Ø19	6,5	5000 N
111.12	ACE011104ZB	12	100	Ø12	Ø20	6,5	8500 N
111.12,5	ACE011105ZB	12,5	100	Ø12,5	Ø20	7	3000 N
111.13	ACE011106ZB	13	100	Ø13	Ø21	6,5	6000 N
111.14	ACE011107ZB	14	100	Ø14	Ø22	6,7	9000 N
111.20	ACE011108ZB	20	100	Ø20	Ø29	6,5	10000 N

Tutti i cuscinetti sono stati testati con prove di carico assiale per una durata di 200000 cicli (600 cicli/min), lubrificati ogni 25000 cicli con grasso Lipler EP1. Per una maggior durata, si consiglia di caricare il cuscinetto al 75% della sua portata. Si consiglia di ingrassare periodicamente il cuscinetto.
All the bearings have undergone axial load resistance tests for a duty of 200000 cycles (600 cycles/min), lubricated every 25000 cycles with Lipler EP1 grease. For greater duties, it is recommended to reduce the load on the bearing to 75% of its capacity. Periodic greasing of the bearing is recommended.

Art. 112

Cuscinetto reggispira zincato nero
Ball bearing black- zinc
подшипник для петель чёрный

LEGENDA SIMBOLI

Symbol description

SALDARE

COMPONENTE DA SALDARE_COMPONENTS REQUIRING WELDING

- Realizzare una saldatura di dimensioni adatte a supportare le forze in gioco e con materiale d'apporto idoneo.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- *The weld must be adequately sized to support the applied forces and with suitable electrode material.*
- *Adequately strengthen the areas anchoring the door and/or structure / frame.*

ACCIAIO

PERNO ACCIAIO_STEEL PIN

- Lubrificare prima dell'installazione. Usare grasso che supporti le condizioni ambientali, evitare grassi che tendono ad essiccarsi rapidamente.
- *Lubricate before installation. Use grease suited to the ambient conditions, avoid grease that tends to dry rapidly.*

ACCIAIO

RONDELLA ACCIAIO_STEEL WASHER

- Lubrificare prima dell'installazione. Usare grasso che supporti le condizioni ambientali, evitare grassi che tendono ad essiccarsi rapidamente.
- *Lubricate before installation. Use grease suited to the ambient conditions, avoid grease that tends to dry rapidly.*

OTTONE

RONDELLA OTTONE_BRASS WASHER

- Lubrificare prima dell'installazione. Usare grasso che supporti le condizioni ambientali, evitare grassi che tendono ad essiccarsi rapidamente.
- *Lubricate before installation. Use grease suited to the ambient conditions, avoid grease that tends to dry rapidly.*

ACCIAIO

PERNO IN ACCIAIO CON RONDELLA FISSA_PIN WITH FIXED STEEL WASHER

- Lubrificare prima dell'installazione. Usare grasso che supporti le condizioni ambientali, evitare grassi che tendono ad essiccarsi rapidamente.
- *Lubricate before installation. Use grease suited to the ambient conditions, avoid grease that tends to dry rapidly.*

CUSCINETTO

CUSCINETTO REGGISPINTA_THRUST BEARING

- Carico assiale max. e manutenzione.
- Lubrificare prima dell'installazione. Usare grasso che supporti le condizioni ambientali, evitare grassi che tendono ad essiccarsi rapidamente.
- *For max axial load and maintenance.*
- *Lubricate before installation. Use grease suited to the ambient conditions, avoid grease that tends to dry rapidly.*

OTTONE

PERNO OTTONE_BRASS PIN

- Lubrificare prima dell'installazione. Usare grasso che supporti le condizioni ambientali, evitare grassi che tendono ad essiccarsi rapidamente.
- *Lubricate before installation. Use grease suited to the ambient conditions, avoid grease that tends to dry rapidly.*

REGOLABILE

COMPONENTE REGOLABILE_ADJUSTABLE COMPONENT

- Regolazione effettuabile ad accessorio montato.
- *The accessory can be adjusted after installation.*

FISSARE

COMPONENTE DA FISSARE_COMPONENTS REQUIRING SCREW MOUNTING

- Fissare con tasselli / bulloni di dimensioni adatte a supportare le forze in gioco.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- *Mount with adequately sized expansion bolts capable of sustaining the applied forces.*
- *Adequately strengthen the areas anchoring the door and/or structure / frame.*

Symbol description

FISSARE

COMPONENTE DA FISSARE COMPONENTS REQUIRING SCREW MOUNTING

- Fissare con tasselli / bulloni di dimensioni adatte a supportare le forze in gioco.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- *Mount with adequately sized expansion bolts capable of sustaining the applied forces.*
- *Adequately strengthen the areas anchoring the door and/or structure / frame.*

REGOLABILE

COMPONENTE REGOLABILE_*ADJUSTABLE COMPONENT*

- Regolazione effettuabile ad accessorio montato.
- *The accessory can be adjusted after installation.*

CUSCINETTO

CUSCINETTO A SFERE_ *BALL BEARING*

- Cuscinetto radiale ad una corona di sfere con guarnizioni striscianti (2RS).
- *Single row radial bearing with contact seals (2RS).*

SALDARE

COMPONENTE DA SALDARE_COMPONENTS REQUIRING WELDING

- Realizzare una saldatura di dimensioni adatte a supportare le forze in gioco e con materiale d'apporto idoneo.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- *The weld must be adequately sized to support the applied forces and with suitable electrode material.*
- *Adequately strengthen the areas anchoring the door and/or structure / frame.*

FISSARE

COMPONENTE DA FISSARE_COMPONENTS REQUIRING SCREW MOUNTING

- Fissare con tasselli / bulloni di dimensioni adatte a supportare le forze in gioco.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- *Mount with adequately sized expansion bolts capable of sustaining the applied forces.*
- *Adequately strengthen the areas anchoring the door and/or structure / frame.*

REGOLABILE

COMPONENTE REGOLABILE_ADJUSTABLE COMPONENT

- Regolazione effettuabile ad accessorio montato.
- *The accessory can be adjusted after installation.*

LEGENDA SIMBOLI

Symbol description

FISSARE

COMPONENTE DA FISSARE_COMPONENTS REQUIRING SCREW MOUNTING

- Fissare con tasselli / bulloni di dimensioni adatte a supportare le forze in gioco.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- *Mount with adequately sized expansion bolts capable of sustaining the applied forces.*
- *Adequately strengthen the areas anchoring the door and/or structure / frame.*

CUSCINETTO

CUSCINETTO A SFERE BALL BEARING

- Cuscinetto radiale ad una corona di sfere con guarnizioni striscianti (2RS).
- *Single row radial bearing with contact seals (2RS).*

SALDARE

COMPONENTE DA SALDARE_COMPONENTS REQUIRING WELDING

- Realizzare una saldatura di dimensioni adatte a supportare le forze in gioco e con materiale d'apporto idoneo.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- *The weld must be adequately sized to support the applied forces and with suitable electrode material.*
- *Adequately strengthen the areas anchoring the door and/or structure / frame.*

CUSCINETTO

CUSCINETTO A SFERE BALL BEARING

- Cuscinetto radiale ad una corona di sfere senza guarnizioni.
- Lubrificare prima dell'installazione. Usare grasso che supporti le condizioni ambientali, evitare grassi che tendono ad essiccarsi rapidamente.
- *Single row radial bearing without seals.*
- *Lubricate before installation. Use grease suited to the ambient conditions, avoid grease that tends to dry rapidly.*

INGRASSATORE

INGRASSATORE_GREASE NIPPLE

- Presenza di ingrassatore M6 sull'accessorio.
- Lubrificazione effettuabile ad accessorio montato.
- *The accessory has an M6 greaser.*
- *Lubrication with accessory installed.*

ACCIAIO

PERNO ACCIAIO_STEEL PIN

- Lubrificare prima dell'installazione. Usare grasso che supporti le condizioni ambientali, evitare grassi che tendono ad essiccarsi rapidamente.
- *Lubricate before installation. Use grease suited to the ambient conditions, avoid grease that tends to dry rapidly.*

MURARE

COMPONENTE DA MURARE_COMPONENTS REQUIRING WALLING IN

- Legare / saldare all'armatura della struttura in cemento armato, proteggere i filetti durante la fase di getto.
- Verificare che la struttura sia adatta a supportare le forze in gioco, rinforzare adeguatamente le zone d'attacco.
- *Tie / weld to the rods in the armoured concrete structure, protect the threads during casting.*
- *Ensure that the structure can sustain the applied forces, adequately strengthening the anchor areas.*

REGOLABILE

COMPONENTE REGOLABILE_ADJUSTABLE COMPONENT

- Regolazione effettuabile ad accessorio montato.
- *The accessory can be adjusted after installation.*

LEGENDA SIMBOLI

Symbol description

COMPONENTE DA FISSARE_COMPONENTS REQUIRING SCREW MOUNTING

- Fissare con tasselli / bulloni di dimensioni adatte a supportare le forze in gioco.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- Mount with adequately sized expansion bolts capable of sustaining the applied forces.
- Adequately strengthen the areas anchoring the door and/or structure / frame.

CUSCINETTO A SFERE BALL BEARING

- Cuscinetto radiale ad una corona di sfere senza guarnizioni.
- Lubrificare prima dell'installazione. Usare grasso che supporti le condizioni ambientali, evitare grassi che tendono ad essiccarsi rapidamente.
- Single row radial bearing without seals.
- Lubricate before installation. Use grease suited to the ambient conditions, avoid grease that tends to dry rapidly.

CUSCINETTO A SFERE BALL BEARING

- Cuscinetto radiale ad una corona di sfere con guarnizioni striscianti (2RS).
- Single row radial bearing with contact seals (2RS).

COMPONENTE DA SALDARE_COMPONENTS REQUIRING WELDING

- Realizzare una saldatura di dimensioni adatte a supportare le forze in gioco e con materiale d'apporto idoneo.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- The weld must be adequately sized to support the applied forces and with suitable electrode material.
- Adequately strengthen the areas anchoring the door and/or structure / frame.

COMPONENTE REGOLABILE_ADJUSTABLE COMPONENT

- Regolazione effettuabile ad accessorio montato.
- The accessory can be adjusted after installation.

LEGENDA SIMBOLI

Symbol description

SALDARE

COMPONENTE DA SALDARE_COMPONENTS REQUIRING WELDING

- Realizzare una saldatura di dimensioni adatte a supportare le forze in gioco e con materiale d'apporto idoneo.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- *The weld must be adequately sized to support the applied forces and with suitable electrode material.*
- *Adequately strengthen the areas anchoring the door and/or structure / frame.*

REGOLABILE

COMPONENTE REGOLABILE_ADJUSTABLE COMPONENT

- Regolazione effettuabile ad accessorio montato.
- *The accessory can be adjusted after installation.*

CUSCINETTO

CUSCINETTO A SFERE BALL BEARING

- Cuscinetto radiale ad una corona di sfere con guarnizioni striscianti (2RS).
- *Single row radial bearing with contact seals (2RS).*

CUSCINETTO

CUSCINETTO A SFERE BALL BEARING

- Cuscinetto radiale ad una corona di sfere senza guarnizioni.
- Lubrificare prima dell'installazione. Usare grasso che supporti le condizioni ambientali, evitare grassi che tendono ad essiccarsi rapidamente.
- *Single row radial bearing without seals.*
- *Lubricate before installation. Use grease suited to the ambient conditions, avoid grease that tends to dry rapidly.*

FISSARE

COMPONENTE DA FISSARE_COMPONENTS REQUIRING SCREW MOUNTING

- Fissare con tasselli / bulloni di dimensioni adatte a supportare le forze in gioco.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- *Mount with adequately sized expansion bolts capable of sustaining the applied forces.*
- *Adequately strengthen the areas anchoring the door and/or structure / frame.*

INGRASSATORE

INGRASSATORE_GREASE NIPPLE

- Presenza di ingrassatore M6 sull'accessorio.
- Lubrificazione effettuabile ad accessorio montato.
- *The accessory has an M6 greaser.*
- *Lubrication with accessory installed.*

MURARE

COMPONENTE DA MURARE_COMPONENTS REQUIRING WALLING IN

- Legare / saldare all'armatura della struttura in cemento armato, proteggere i filetti durante la fase di getto.
- Verificare che la struttura sia adatta a supportare le forze in gioco, rinforzare adeguatamente le zone d'attacco.
- *Tie / weld to the rods in the armoured concrete structure, protect the threads during casting.*
- *Ensure that the structure can sustain the applied forces, adequately strengthening the anchor areas.*

LEGENDA SIMBOLI

Symbol description

SALDARE

COMPONENTE DA SALDARE_COMPONENTS REQUIRING WELDING

- Realizzare una saldatura di dimensioni adatte a supportare le forze in gioco e con materiale d'apporto idoneo.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- The weld must be adequately sized to support the applied forces and with suitable electrode material.
- Adequately strengthen the areas anchoring the door and/or structure / frame.

FISSARE

COMPONENTE DA FISSARE_COMPONENTS REQUIRING SCREW MOUNTING

- Fissare con tasselli / bulloni di dimensioni adatte a supportare le forze in gioco.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- Mount with adequately sized expansion bolts capable of sustaining the applied forces.
- Adequately strengthen the areas anchoring the door and/or structure / frame.

REGOLABILE

COMPONENTE REGOLABILE_ADJUSTABLE COMPONENT

- Regolazione effettuabile ad accessorio montato.
- The accessory can be adjusted after installation.

LEGENDA SIMBOLI

Symbol description

SALDARE

COMPONENTE DA SALDARE_COMPONENTS REQUIRING WELDING

- Realizzare una saldatura di dimensioni adatte a supportare le forze in gioco e con materiale d'apporto idoneo.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- The weld must be adequately sized to support the applied forces and with suitable electrode material.
- Adequately strengthen the areas anchoring the door and/or structure / frame.

FISSARE

COMPONENTE DA FISSARE_COMPONENTS REQUIRING SCREW MOUNTING

- Fissare con tasselli / bulloni di dimensioni adatte a supportare le forze in gioco.
- Rinforzare adeguatamente le zone d'attacco all'anta e/o alla struttura / telaio.
- Mount with adequately sized expansion bolts capable of sustaining the applied forces.
- Adequately strengthen the areas anchoring the door and/or structure / frame.

REGOLABILE

COMPONENTE REGOLABILE_ADJUSTABLE COMPONENT

- Regolazione effettuabile ad accessorio montato.
- The accessory can be adjusted after installation.

CONDIZIONI GENERALI DI VENDITA

Sales Conditions

ORDINI

Gli ordini dovranno pervenirci con gli esatti riferimenti di codice articolo, in caso contrario l'azienda non si assume nessuna responsabilità per eventuali errori che derivino da manchevoli o insufficienti indicazioni.

Le quantità non multiple degli imballi standard indicati nel listino prezzi verranno automaticamente arrotondate per eccesso. L'importo minimo d'ordine è di € 200,00 + iva.

Per ordini di importo inferiore verrà addebitato in fattura un contributo gestione pratica pari a € 30,00 + iva.

PREZZI

I prezzi del presente listino si intendono IVA esclusa.

SPEDIZIONI

Salvo diversi accordi, la fornitura dei prodotti si intende Ex Works Incoterms 2020 e pertanto l'azienda non si assume alcun rischio ed alcuna responsabilità per ritardi, perdite, danni causati durante il trasporto.

La consegna si intende effettuata al momento in cui la merce viene consegnata allo spedizioniere.

TERMINI DI CONSEGNA

I termini di consegna sono indicativi e quindi non impegnativi.

Eventuali ritardi non daranno diritto al compratore a qualsivoglia pretesa di danni o interessi.

CONDIZIONI DI PAGAMENTO

Le condizioni di pagamento sono concordate direttamente all'acquisizione dell'ordine con l'azienda o con l'agente autorizzato. In caso di ritardato pagamento verranno applicati gli interessi moratori secondo le norme di legge in vigore. Ogni irregolarità nei pagamenti, indipendentemente dalla causa, autorizza l'azienda a sospendere o ad annullare gli ordini in corso di esecuzione, senza che ciò pregiudichi il suo diritto ad eventuali azioni per il risarcimento del danno.

RECLAMI

Eventuali reclami rilevati al momento dello scarico della merce dovranno essere annotati sul documento di trasporto (D.d.T.) o sulla lettera di lettura e comunicati direttamente all'azienda entro 8 (otto) giorni a mezzo e-mail : vendite@combiaraldo.it

RESI MERCE

Si accettano resi di merce solo in porto franco e solo se concordati ed autorizzati dall'azienda. Verranno addebitate spese per gestione pratica, ricondizionamento, immagazzinamento pari al 20% del valore della merce.

CONTROVERSIE

Per ogni controversia è competente il foro di Lecco - Italia.

Ogni immagine, scheda tecnica e dimensionale descritta nel catalogo è puramente indicativa; l'azienda si riserva di apportare in qualsiasi momento modifiche tecniche ed estetiche senza nessun preavviso. Nel caso specifico di esigenze tecniche e relativi disegni, è consigliabile rivolgersi all'Ufficio Tecnico della società COMBIARIALDO. Si declina ogni responsabilità per uso improprio della merce. Tutti i dati sono redatti e controllati con la massima cura. Non ci assumiamo comunque nessuna responsabilità per eventuali errori o omissioni. Ogni disegno, fotografia, marchio, logo, deve intendersi come proprietà esclusiva della COMBIARIALDO. Tutti gli utilizzi non espressamente autorizzati saranno perseguiti penalmente.

ORDERS

All orders have to mention the exact reference of the article code. Otherwise, the company will take no responsibility for any possible mistake due to missing or insufficient information. Quantities that are not multiple of the standard packages mentioned on the price list will be automatically rounded up. The minimum order amount is EURO 200,00.

Orders with less amount will be charged on invoice for the practice management expenses of EURO 30,00.

PRICES

The prices of the present list are V.A.T. excluded.

SHIPPING

Unless otherwise agreed, products are supplied Ex Works Incoterms 2020. Therefore, the company will not take any risk or responsibility for delays, losses or damages of goods caused during the transport.

The delivery is considered made once the goods is delivered to the forwarder.

DELIVERY TERMS

Delivery terms are just indicative and consequently not binding.

Possible delays give no right to the buyer to ask for refund of damages or interests.

PAYMENT TERMS

Payment terms are agreed at the order with the company or with the authorized agent. In case of payment delay default interests will be applied according to the law in force.

All irregularities in payments, regardless of the cause, authorize the company to hold-on or to cancel the processing orders, without prejudicing the right of the company to move possible actions for the refund of the damage.

COMPLAINS

All possible complains raised at the download of the goods have to be mentioned on the delivery note or on the waybill and communicate to the company within 8(eight) days by e-mail: vendite@combiaraldo.it

RETURNS OF GOODS

Returns of goods are accepted only in free port and only if previously agreed and authorized by the company. Expenses equal to 20% of the value of the returned goods will be charged for the practice management, the reprocessing and restoring of the returned goods.

DISPUTES

In case of dispute the competent courts is the court of Lecco - Italy.

All images, technical and dimensionai charts mentioned in the catalogue are purely indicative. The company reserves the right to make technical as well as aesthetic changes without previous notice. In case of specific technical needs or related drawings, it is suggested to contact the Technical Office of COMBIARIALDO. All responsibility due to an inappropriate use of the goods is declined. All data are drawn-up and checked with the utmost care. Anyway, we take no responsibility for possible mistakes or omissions. All drawings, photos, trademarks, logos, are of exclusive COMBIARIALDO's property. All uses not expressly authorized by the company will be prosecuted.

Prior written permission from the supplier is required for
advertising the goods photographed with photo or other means.

A tutti coloro che, senza nome e senza volto, lavorando con passione e dedizione, rendono possibile la realizzazione di qualcosa che è più di un semplice accessorio.

To all those, who remain nameless and unknown, and dedicate their passion to the realisation of something which is more than just a simple hardware.
Thank you Arialdo.

Grazie papà
